13                   Plaintiff(s),

14  
15                   **ORDER TO SUBMIT ADDITIONAL  
INFORMATION IN SUPPORT OF  
MOTION FOR PRELIMINARY  
APPROVAL OF CLASS ACTION  
SETTLEMENT**

16                   v.

17                   LINDEN RESEARCH, INC. ET AL,

18                   Defendant(s).

19                   Plaintiff has filed a motion for preliminary approval of a class action settlement. [Docket  
20 No. 113.] Following a hearing on the matter, Plaintiff submitted supplemental information in  
21 support of the motion, including an amended settlement agreement. [Docket No. 121.]22                   The court has reviewed the supplemental information and finds that the amended settlement  
23 agreement, [Docket No. 121-1], contains typographical errors. Section 1.8, on page 3, contains a  
24 sentence fragment rather than a substantive provision (“by Defendant Linden’s suspension or  
25 closure of their Second Life accounts.”), and the time period set forth on the first line of page 9 is  
26 inconsistent (“active until at least thirty (90) days”). In addition, Plaintiff submitted a declaration by  
27 Richard W. Simmons regarding class notice, [Docket No. 121-3], that was signed but not dated.  
28

1 Therefore, by no later than October 16, 2013, the parties shall submit a second amended settlement  
2 agreement and an updated Simmons declaration addressing these issues.
